*No Insurance

Our goal at OPC is to allow everyone to experience the benefits of chiropractic care and adjustments. For patients who have little or no chiropractic insurance coverage, we can work with you to arrange a flexible payment program that fits your budget. If you have no insurance or if your insurance does not have any chiropractic benefits, there are still ways for you to receive the pain relief and chiropractic care that you need. Many patients choose to pay directly for their visits with the chiropractor, especially as they discover that chiropractic care is actually extremely cost-effective and affordable. For these patients, chiropractic care is often cheaper and more effective than alternative pain treatments such as pain medications or invasive surgery.
